

Animated Stat Cards provide a countdown animation of a figure. Otherwise they work in the same way as regular Stat Cards.

Create a new animated stat card.

Select Blocks > Add Block > Animated Stat Card.

1. Enter a Label. This is an administrative title that won't be visible to the website visitor.
 2. Enter a Title and Description (see next page for how these fields display on the card)
 3. Choose the Animation Type. **At this time, only Counter type is functional.**
 4. Enter Counter Values:

Counter Prefix, such as \$.
Counter Value, the number you want to display.
Counter Suffix, such as K.
Counter Duration, how long the animation will run, in seconds.
- Click the Save button.

The screenshot shows the 'Edit Animated Stat Card' interface for a card titled 'marla test ar'. The form includes the following fields and options:

- Label ***: A text input field containing 'marla test animated card', highlighted with a green box and labeled '1'. Below it is the text 'Name that displays in the admin interface'.
- Title**: A text input field containing 'Maria's Probable Income', highlighted with a green box and labeled '2'.
- Description**: A text input field containing 'By the year 2018'.
- Animation Type ***: A section with three radio button options: 'Counter' (selected), 'Doughnut', and 'Pie'. This section is highlighted with a green box and labeled '3'. Below the options is a blue link labeled 'Counter'.
- Counter Prefix**: A text input field containing '\$'.
- Counter Value**: A text input field containing '3987230', highlighted with a green box and labeled '4'. Below it is the text 'Must be an integer or a decimal value'.
- Counter Suffix**: An empty text input field.
- Counter Duration**: A text input field containing '4'. Below it is the text 'In whole seconds'.

The Counter Values shown in this example display like this:

\$3,987,230
